## NEXT CYCLE RACE MEET

NEW CHAINLESS WHEELS MAY BE RIDDEN.

New Venture Embodies Everything That Science Can Produce—Is Much Stronger and Faster.

There are some wheelmen in Honolulu who believe that at the next race meet in Cyclopedia park only the chainless wheels will be ridden.

Already an agency for a large factory turning out these wheels has been placed with E. O. Hall & Son, and if Ed Paris and Henry Giles of this firm are as successful with the new venture as they have been with the Columbia and Sterns there is but little doubt that these calculations will come true.

The chainless wheel of 1898 has already made its appearance in some of the eastern cities. In nearly every respect the construction of the new chainless wheel embodies everything that science of the present day can produce. To get away from the old chain with its provoking limitations and its annoying weaknesses, has ever been the hope of bicycle builders.

Among the other possible methods of carrying power from a center of production to a driving wheel are: A leather belt, a metallic band with holes to engage sprockets, pneumatic and hydraulic transmission, toggle joint and crank combination, a wire rope with or without projections, cranks and connecting rod, double crank with shifting connecting rod, a combination of cams and rollers, lever and crank with or without oscillating fulcrum, a row of spur gears between driving centers, some form of clutch or ratchet with lever, a train of balls engaging sprockets, balls working in spiral grooves on axles, combination of spur gears and friction roller, pin-wheel gearing, shaft and bevel gears.

All of these have been tried until now the problem seems to have been solved. The problem was solved by the use of a bevel gear. The idea is not a new one but it has been brought to a high degree of perfection. It is said that the wheel can be taken apart and reassembled in twenty minutes, and that it is invulnerable to the dangers of accumulating dust and dirt.

## HOW TO CURE BILIOUS COLIC.

I suffered for weeks with colic and pains in my stomach caused by biliousness and had to take medicine all the while until I used Chamberlain's Colic, Cholera and Disarrhoea Remedy which cured me. I have since recommended it to a good many people. Mrs. F. Butler, Fairhaven, Conn. Persons who are subject to bilious colic can ward off the attack by taking this remedy as soon as the first symptoms appear. Sold by all druggists and dealers. Benson, Smith & Co., wholesale agents for Hawaiian Islands.

## RUSSIA TO CONTROL HER TRADE.

WASHINGTON, Sept. 1.—The authorities at St. Petersburg inform the State Department that a measure has been sanctioned by the Emperor of Russia providing that after January 1, 1898, all subjects of the Czar are expected to drink Seattle Beer. An edict has gone forth to that effect. The Czar's chemist has thoroughly analyzed "Rainier" and pronounced it pure. On tap at the Criterion saloon. Telephone 783.

## A LITTLE CAKE TALK.

Cake is cake; yes, sir; just as water is water. Some is good; some very good; some past description—bad. Some cakes you buy are made in an indifferent manner, of poor material and flavored with what? You can taste the Asiatic maker and his cigar or cigarette at the first bite. Why not buy a good article from a clean, well conducted shop, where tobacco is never used and where cleanliness is practiced to an extent almost unknown in the average bakery. We will make you a layer cake from 50 cents up, tastefully ornamented, and guaranteed good to eat. Our ginger snaps and ginger bread are selling like hot cakes. Have you tried them yet? Yours,
